DETAILED ACTION

Allowable Subject Matter

1. Claims 29-32 are allowed.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

The closest prior art of record is U.S. Publication No. 2001/0019615 to Kato et al.

Kato et al. disclose a method and apparatus of enciphering and deciphering data using multiple keys. Kato et al.'s method/apparatus obtains first information by enciphering data with a first key, obtains second information by enciphering the first key with each of a plurality of predetermined second keys and later deciphers the first and second information. Kato et al. taken either individually or in combination with other prior art of record fails to teach or suggest second content decryption means for decrypting the second content using a second decryption method that corresponds to the second encryption and is more difficult than the first decryption method when the data that has been obtained by the obtaining means includes the second content as recited in independent claim 29.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
